18 Environmental Policy

Orion Rail Construction recognises the impacts that its operations, activities and waste arising's have on the environment. It maintains a commitment to minimise the adverse effects of those impacts through the implementation and continual improvement of an environmental management system **ISO 14001:2015**.

The Company's environmental management system will ensure compliance with environmental legislation and the prevention of pollution through appropriate risk control consistent with maintaining an exceptional service to its customers.

Orion Rail Construction is therefore committed to the following key policy principles:

- Integrating the consideration of environmental concerns and impacts into all of our decision making and activities
- Recognising that the minimum acceptable level of environmental performance is that set out in current environmental legislation
- Setting clear environmental objectives and regularly monitoring progress against them
- Minimising the generation of waste and reducing its environmental impact through responsible disposal and recycling options
- Minimising the use and emission to the environment of any hazardous materials used in the Company's processes and activities and sourcing non-hazardous alternatives where commercially viable
- Purchasing recycled, recyclable and environmentally responsible products where these are available, economical and suitable
- Working in partnership with suppliers and customers to establish high environmental standards
- Promoting environmental awareness among employees and training Operatives about environmental issues that affect their work and their responsibilities in maintaining good environmental management
- Communicating the Company's Environmental Policy and commitments to all Operatives, suppliers, customers and other interested parties

Sam Dcruze
Rail Managing Director
